Bill McDade  
Rotary

Dear Bill

**Re: Borehole Project – Beit CURE International Hospital**

Please find attached a spreadsheet detailing how the Rotary Club of Limbe, Malawi, has deployed the grant you kindly provided amounting to \$21,305 USD to-date. The funds were donated with the intention of assisting the Beit CURE International Hospital to reduce expenditure on water bills and increase the reliability of the water supply.

This first part of the mission has now been achieved. Phase two, which was to improve the water supply on other parts of the site is awaiting further funds in order to make it viable. Phase two is likely to focus on the addition of water tanks, accommodation modification and improved plumbing in order to ensure that accommodation blocks for medical students and other visitors can be maintained on a consistent basis.

This grant is a godsend to the Hospital and we are sincerely grateful to our fellow Rotarians for providing it at this difficult time. We look forward to pressing on with phase two and holding a grand commissioning when you visit us later this year. We have receipts for all expenditure and we are proceeding carefully.

Please do not hesitate to contact me if you would like scanned in receipts, photos or any other information.

Yours sincerely,

Stuart Palmer  
**Executive Director**
