

District/Governor's/Rotaract Grant Final Report Form

This report must be completed and uploaded on matchinggrants.org within 30 days after completion of the project but no later than 2 years after the date of approval of the project. For scholarships, the report is due 30 days after payment of funds.

Rotary Year 2023-24

District Grant # (from matchinggrants.org) P-4241

Rotary Club: Loveland Rotary Club

Project Title: Middle School Fabrication Shop

Project Description:

Purchase equipment and find advisors for a fabrication shop at Walt Clark Middle School

1. Is this a scholarship governor's grant report? Yes No (If yes, go directly to line 16)

2. Briefly describe the project. What was done and where did the project activities take place? Explain how the beneficiaries and other community members were involved?

The Thompson School District in Loveland has recently constructed a Career Center along with a new alternative high school that provides training for jobs right out of high school. Walt Clark middle school has many students that continue on into the alternative high school and is partnering with them to prepare their students to hit the ground running when they enter the manufacturing and design pathway. With this project, Walt Clark will be able to purchase equipment that will allow students to create prototypes and finished products and learn how to use graphic design applications to produce laser engraved and 3D printed designs. The Rotary club of Loveland fund the initial equipment needed to get this shop going and will also provide consulting to help set up the shop and then will help find mentors to help the students with their projects.

3. How many Rotarians participated in this project? 4

4. What did they do? Please give at least two examples.

The project started with the STEM committee selecting this project from a set of possible projects. We visited the school and saw the area to be converted into the Fab Shop and discussed with them how it will be used by the students. One of the members of the STEM committee is a mechanical engineer and she helped them with the layout of the equipment. Another member of the STEM committee contacted one of the local high tech firms, Keysight Technologies, and located two engineers from the Keysight who were willing to act as advisors to the student projects. There were several meetings with the Keysight engineers to see how they could help.

5. How many non-Rotarians benefited from this project? 200 students/year

6. Who are the beneficiaries and what is the expected long-term community impact of this project?

Preparing kids for future careers an life skills

7. If a cooperating organization was involved, what was their role? No

8. Income:

| Income Source | Amount |
|-----------------------------|---------|
| Rotary club of Loveland | \$4,000 |
| Rotary District 5440 | \$5,606 |
| Total Project Income | |

9. Expenditures: (number receipts starting with 1 and indicate a receipt # (s) for each expenditure) (Do not include travel expenses)

| If international project convert amounts to US dollars | Receipt # (s) | Budgeted Amount | Actual Amount |
|--|---------------|-----------------|---------------|
| See attached list and receipts | | | |
| | | | |
| | | | |

| | | | |
|----------------------------|--|--|--|
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| Total project expenditures | | | |

10. Please explain any variance of more than 5% between the budgeted amount and the actual amount including the reason for the variance and why the alternative was chosen.
 Due to changes required by the school district facilities department there were changes in the equipment allowed to be used in the fabrication shop. This necessitated changes in the purchases although they are essentially the same that were listed in the budget and the total amount was almost exactly the same.

11. Project score (5=strongly, 4=agree, 3= neutral, 2=disagree, 1=strongly disagree)

| | Project Score | Comments |
|--|---------------|---|
| The overall project was successful | 5 | |
| The grant process worked well | 5 | |
| My interaction with partner clubs was good | N/A | |
| We achieved the results we expected | 5 | We did achieve the results however, there were quite a few delays that caused the project to be completed more than a year late |

12. Did you upload photos in your project on matchinggrants.org under the Photos tab? (If not, please do so)

13. What worked well on this project and why?

What worked well was that the school was able to develop an excellent fab shop based on our funding and the help of a mechanical engineer on our STEM committee

14. What did not work well and how would you suggest improving it?

The project was significantly delayed but this was due to many factors out of our control such as the school district taking more time to review the request and requiring more things to be done before the project could begin.

15. How was this project publicized?

Our Public Image committee will create a promo card on this project and publicize it on the club website, LinkedIn, and Facebook. We will send a press release to the local newspaper and also send a description of the project to the district for the district newsletter.

16. Scholarship Governor's grant only

a. Name of scholarship awardee _____

b. Current school _____

c. University of college they will be attending _____

d. Course of study _____

e. Starting date _____

Project Inventory

Please list all items provided in this grant that are over \$500 in value and are not expendable.

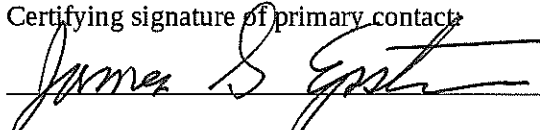

| Item Purchased | Date of Purchase | Cost | Initial Destination/ Location | Comments |
|-----------------------|-------------------------|-------------|--|-----------------|
| All equipment | 2022/23 | \$9,614.48 | Walt Clark Middle School | |

| | | | | |
|--|--|--|--|--|
| | | | | |
| | | | | |
| | | | | |

By signing this report, I confirm that to the best of my knowledge these District Grant funds were spent only for eligible items in accordance with Trustee-approved guidelines, and that all the information contained herein is true and accurate. Receipts for all grant-funded expenditures are attached. I also understand that all photographs submitted in connection with this report will become the property of RI and will not be returned. I warrant that I own all rights to the photographs, including copyright, and hereby grant the District, RI and TRF a royalty free irrevocable license to use the photographs now or in the future, through the District and the world in any manner it so chooses and in any medium now known or developed. This includes the right to modify the photographs as necessary in the District's and RI's sole discretion. This also includes, without limitation, use on or in the web sites, magazines, brochures, pamphlets, exhibitions and any other promotional materials of the District, RI, and TRF.

Please attach all receipts or an invoice and a copy of the check used to pay the invoice. Funds over \$100 not used must be returned to the district grants treasurer.
