

## ACCESS TO HYGIENIC SANITATION AND CLEAN WATER IN SUNYANI, GHANA

The project is to provide 10 selected schools and communities with clean drinking water through mechanized borehole systems, and 50 eco-friendly micro flushed toilet blocks for households in the communities and schools. The schools are public schools and the communities are deprived and congested urban and rural communities within the Sunyani Municipal Areas of the Bono Region, Ghana. The Sunyani Municipality is about 90% urbanized with an estimated population of about 300,000 people. However, the communities and schools at the fringes of the city and the congested inner areas face serious challenges with access to water and sanitation services. This is harming the quality of life, affecting negatively on the teaching, and learning in the schools. The Rotary Club of Sunyani-Central has received several requests from the communities and schools for help to address these challenges

The estimated cost of the project is approximately USD64, 500 and club is seeking for district and club partners to submit a global grant for approval to implement this project. About 30,000 people will directly benefit from this project.

The Rotary Club of Sunyani-Central has extensive experience and expertise from the successful implementation of similar projects in the past in several communities and schools in Ghana. Our approach has strong sustainability and community participation right

from the planning through to the implementation and post-implementation stage of the projects. Integrated with maintenance and hygiene training for all beneficiaries

The club will be delighted to work with interested districts and clubs from anywhere in the world to deliver on this project. Click on this link [Rotary Global Grant G-3370 \(matchinggrants.org\)](https://www.matchinggrants.org/grant/rotary-global-grant-g-3370) to indicate your interest and pledge your club or district funding for the project. You can also contact email [rcsunyanicentral@gmail.com](mailto:rcsunyanicentral@gmail.com) or Past Assistant Governor Frank Kofi Owusu Debrah on +233 20 386 0922 voice call and WhatsApp. Email: [kofiodebrah@outlook.com](mailto:kofiodebrah@outlook.com) to discuss your interest in the project.

Remember, hygienic sanitation and clean water is health and life for healthy people, healthy communities. Thank you for deciding to be part of this great service opportunity.
