World Community Service Projects Exchange PROJECT DATA FORM

Use this form to publicize your project's needs through the World Community Service Projects Exchange, a searchable listing of clubs seeking assistance for their community service projects from clubs abroad.

Inclusion of a project in the World Community Service Projects Exchange does not petition for nor ensure funding from The Rotary Foundation. To apply for funding through one of the Humanitarian Grants Programs, please complete and submit the appropriate application to The Rotary Foundation.

A project is included in the World Community Service Projects Exchange on Rotary International's Web site for two years, unless the sponsoring club chooses to withdraw the project or RI is informed that the project has been completed.

World Community Service Projects Exchange Guidelines

1. The project sponsor is defined as the local in-country Rotary club or district. Rotary clubs and districts that wish to register a project on the WCS Projects Exchange but are outside the project country should cooperate with an in-country club or district, which can then register the project.
2. Project information must be submitted on this official Project Data Form. Please type all information or print legibly.
3. The sponsoring Rotary club must notify RI World Headquarters immediately upon project completion or if the project contact changes.
4. The project contact must respond to all inquiries about the project promptly.
5. Each club may have up to five projects registered on the WCS Projects Exchange at any one time.

Waiver of Liability (Please read carefully)

The undersigned representative of the project sponsor, to the full extent permitted by law, hereby releases and agrees to defend, indemnify and hold harmless Rotary International and The Rotary Foundation, including their respective directors, officers, trustees, employees, agents and representatives, any registered Rotary Volunteer(s), and all members, officers, directors, committee members and employees of the sending Rotary clubs and districts ("Indemnities"), from and against all claims, including claims of subrogation, demands, actions, damages, losses, costs, liabilities, expenses (including reasonable attorney's fees and other legal expenses), awards, judgments and fines asserted against or recovered from Indemnities, arising out of any act, conduct, omission, negligence, misconduct or unlawful act (or act contrary to any applicable governmental order or regulation) of such project, the sponsoring club, including their directors, officers, members, employees, volunteers, agents and representatives, during, or as a result of, participation in the World Community Service project. The foregoing includes, without limitation, injury or damage to the person or property of Indemnities or any third party.

Agreement

As president of the Rotary Club of HAYATABAD PESHAWAR in the project country, I hereby certify that all funds and materials that the club receives in support of this project will be properly applied to the project and will be promptly acknowledged. This club will send regular reports to the club or district providing assistance and to Rotary International.

(DR. HIKMAT ULLAH JAN)

District
 Interact Club

Rotary Community Corps

Rotary Club Name: HAYATABAD PESHAWAR

District Number: 3270

Rotaract/Interact/RCC Name: NOT APPLICABLE

State/Province: NWFP

Country: PAKISTAN

Is this project a re-registration? Yes — project ID # W0 _____

No

1. Description of the community to be served: Describe the local community and economy as it relates to this project.

Southern Districts (D.I. Khan, Lakki Marwat, Tank and Karak), with a population of 4 million, is the dried semi-Desert and far flange areas from Peshawar where the literacy ratio is 15%. The provision of drinking water is by donkey carts from far flung areas or nearby towns or women carries pitchers on their heads to carry water for their needs from far away water reservoirs which is unhygienic for human health. This project addresses the most common and needy cause of clean drinking water.

2. Description of the project: Describe the project and its expected results. Estimate how many people will benefit. Describe any part of the project that has been implemented.

One large size community hand pump will benefit 80 households and average number of beneficiaries in one family 8 – 10 person. So individuals benefiting from all 30 hand pumps will be more 24000 individuals. Survey has been done for the said project and ready to be implemented.

3. Participants

- a. Community participation:** Describe the participation of the community to be served in each phase of the project — identifying the need for the project, deciding on an effective way to proceed, implementing the project, and maintaining the project.

Participation and plans will be collaborated with the concerned community and the appraisal, for chalking out development plans and strategy. Rotary will involve elders, political leaders, social workers, teachers and people from all walks of life for project planning and designing. It will be the project of "*For the People, by the people, of the people*". The project will be completed in a successful manner in order to run and maintain each community hand pump; we had plain to train skilled operations to make the project sustainable. We will arrange comprehensive training programs for such operators. These operators will be responsible for the smooth operation and running of the hand pumps.

- b. Club participation:** Describe your club's participation in the project. State what goods and services the club will contribute. Will your club be making a financial contribution? If so, please estimate the amount.

The Rotarian Club of Hayatabad, Peshawar kept regular liaison with the local community. The club members will visit regularly the project area and will be monitoring the whole the project till the end. The Club will contribute approx. 2000 USD for the smooth process flow. Keeping in view the need for more financial contribution, it was wished to contribute more, but due to the social and financial conditions of the Province, it is hard to put on more.

The current situation of our province is that we have faced the war against terrorism and thousands of people had been dead in the current catastrophic suicidal attacks. Therefore, the businesses are camouflaged in the recent currents and promotional developments of the society and works have been reduced to negligibility.

- c. **Other participants:** List any other organization that will participate in the project. Include government agencies, local charitable organizations, international agencies, etc. Describe their role.

Not Applicable

4. **International needs:** Complete those categories listed below that apply.

a. **Funds:**

Please provide all of the following:

- A **detailed** list of items and/or services to be purchased with cash contributions, in order of priority
- A US\$ amount for each item/service
- A US\$ amount for the funds needed to complete the project
- A projected two-year funding goal

One large size community hand pump costs US\$ @ 224.096 \$, thus 30 large size community hand pumps will cost US\$ 31403.614

Donation is invited in multiple of US\$ 500 for these installation

b. **Donated goods:** List the specific items you would like to have donated.

- Give information about customs procedures and import duties.
- State whether you can provide assistance with international shipping.
- For medical equipment, please include the common name for each piece, as well as information about the local availability of parts and service.
- For books, specify the subject, language, and reading level.

Note: Carefully research import regulations before requesting donated goods.

Donation of Community Hand Pumps will be highly appreciated.

- c. **Volunteers:** Is this project ready to accept Rotary Volunteers? Yes No

If yes, please complete the information below.

- List the skills that the project needs from an international volunteer.
- Explain how many volunteers are needed, the time commitment needed, and the time of year.
- State what language a volunteer should speak.
- Describe anything you can offer the volunteer (home hospitality, local transportation, etc.).

Note: Projects requesting volunteers will be automatically registered in the Rotary Volunteers International Site Database.

5. Available project information:

- a. **Web site:** If applicable, provide the project Web site address: www.rotarylahoregarrison.org
- b. **Photos:** If you have any photos of your project available, please submit them with a Photo Submission Form for possible inclusion in an upcoming RI publication or on the RI Web site.
- c. **Other materials:** List other materials about your project you have to share with potential donors (e.g., presentations, brochures, videos, reports, invoices, blueprints) and submit supporting materials with this Project Data Form.

Photographs and small project write-up can be provided on request.

6. Project contact: This Rotarian is responsible for providing information about the project to interested Rotary clubs and to RI World Headquarters during the entire course of the project. The project contact's name, address, phone and fax numbers, and e-mail (if provided) will be included in the World Community Service Projects Exchange.

I agree to have the following contact information published in the World Community Service Projects Exchange Database on the RI Web site (www.rotary.org). Yes No
